CODE OF ETHICS

I promise I will maintain a high standard of work and constantly develop my own knowledge to enhance the client's well-being.

I will work in liaison with medical personnel and develop a good relationship with them within my own field of work.

I will stay within my own field of reference, and will work with a holistic approach to enable my clients to realise their own potential.

I promise I will conduct myself professionally at all times.
I will not by any action cause my profession, or the Isa Carstens Academy to be brought into disrepute.
